[Free Packages](#)[EdCity Reading Packages 22/23](#)[SUEP Reading Package 22/23](#)[Young Scientist-STEM Reading Package 22/23](#)

Under 'eRead Scheme', the service offers a wide range of eBooks for primary and secondary school students, Living & Social Life, Humanities, History & Geography, etc.

Select a reading package with the hidden books that you would like to check the book status.

This reading package includes a minimum of 100 eBooks. Schools can opt to increase the number of subscribed eBooks by a multiple of 50 (i.e. 150, 200, 250 eBooks and so on). Each school can select eBooks from over 2,500 titles* in the 'Standard Book List' to build a school-based reading package with 1-Year Service, or 2-Year Service at a discounted price.

To further enhance our reading services, EdCity is introducing the 'Premium Top-up Service' Pilot Scheme under the 'EdCity Reading Package' in school year 2022/23. The new scheme invites participating publishers to select quality books published in the recent 2 years to enrich schools' eBook collection. The school sector therefore can gain access to a wider range of quality books at a reasonable price.

Upon successful subscription to the 'Standard Book List', schools are entitled to subscribe to the 'Premium Top-up Service' with a minimum of 50 eBooks to diversify students' reading resources (only 1-Year subscription is available for this service).

* The Book list will be continually updated.

For quotation, please [click here](#) to complete the online form. EdCity will get back to you in 3-5 working days. Please [click here](#) to download Scheme Fact Sheet (PDF)
